

CLASSES For PreK-6th Grade

Time	Class	Teacher	Additional Fees	Description	Max.#	Grade Level
These classes are for our youngest students ages 4-6 (see chart for details). The purpose of these classes is mostly socialization and to give our youngest students a place to be during the day.						
10:30-11:30	Playtime for Littles	Crystal Southern	None	Supervised play for children 6 and under. Students will need to be picked up after class by a parent or older sibling. There will be no eating in the classroom.	N/A	PreK-K (age: 4-6)
12:00-12:30	Stretch & Grow	Shawna Wall	\$10/semester	A class to keep young students excited about learning. This class will be a combination of science, reading, health, and physical education.	12	PreK-K (age: 4-6)
12:30-1:00	Story Time	Elise New	None	Students will listen to picture books and complete crafts appropriate for their age. *Due to the nature of this class additional adult supervision may be required.	12	PreK-K (age: 4-6)
These classes are for lower elementary (approximately ages 6-9). Please pay special attention to the grade level listed and see chart below for more details.						
9:30-10:30	Read Aloud	Annette Johnson	None	Students will listen to various age appropriate books. Along with participating in drawing, writing, and/or verbalizing what they enjoyed from our reading each week.	12	1st-3rd Grade
9:30-10:30	Game School (FALL ONLY)	Erin Compton	\$10/semester	Students will be learning to play various board and card games. Students should be able to read and understand rules. *Fee is to replace any games that get broken and maybe refunded.	12	2nd-4th Grade
	Elementary Spanish (SPRING ONLY)	Becky Gomez		Students will build listening and conversational skills through songs, games and fun activities. No prior Spanish needed-just a willingness to learn and have fun!		
10:30-11:30	Nature Study	Shawna Wall	\$10/semester	Each month will have a different focus as students learn about nature through hands on activities and experiments.	15	1st-3rd Grade
12:00-1:00	US Geography	Marlena Battenfield	\$10/year	Students will be learning about US geography. They will learn the state capital, state bird, and state flag for each of the 50 states.	15	1st-3rd Grade
1:00-2:00	Geology Rocks! (FALL)	Laura Wise	\$15/ semester	Explore and learn about rocks and minerals through hands on activities and lessons. Also learn about the planet, volcanoes, earthquakes, mountains, and more. The students will have the opportunity to break geodes and examine rocks and crystals along with other supplemental activities.	15	2nd-4th Grade
	Exciting Ectotherms: Reptiles, Amphibians, & Fish (SPRING)			Explore and learn about reptiles, amphibians, and fish. We will learn all about these unique ectotherms and the amazing ecosystems where they are found. Please use judgement if your child is in the overlap age with the upper elementary course of the same name- they will not need to be in both.		
All Day/Varies time slots	Piano Lessons	Vicki Robinett	Contact Teacher	Private Piano Lessons		1st grade+

These classes are for upper elementary (approximately ages 9-12). Please pay special attention to the grade level listed and see chart below for more details.

****Please see the middle school class options for the best fit for 6th grade students and please reach out with any questions.**

9:30-10:30	Strategic Game Play	Sarah Bridges and Henry House	TBD	Students will learn strategies for classic and newer critical-thinking, skill-based games like chess, dominoes, solitaire, Historical Conquest, Catan, and more. * A senior student is facilitating this class with a parent volunteer to supervise.	12	5th-8th Grade
10:30-11:30	Geology Rocks! (FALL)	Laura Wise	\$15/ semester	Explore and learn about rocks and minerals through hands on activities and lessons. Also learn about the planet, volcanoes, earthquakes, mountains, and more. The students will have the opportunity to break geodes and examine rocks and crystals along with other supplemental activities.	15	4th-6th Grade
	Exciting Ectotherms: Reptiles, Amphibians & Fish (SPRING)			Explore and learn about reptiles, amphibians, and fish. We will learn all about these unique ectotherms and the amazing ecosystems where they are found.
